

COMMENDATION FOR ADDRESSING SECTORAL ISSUES

The China Navigation Company Limited

CNCo 2007 Environmental Report

The report:

is a leading report for the sector – and China Navigation Company should be commended for its effort

is an informative read and provides detailed data on key issues such as fuel use, carbon dioxide, oils, refrigerants, emissions and waste

provides a useful definition of each KPI and metric used – increasing the comparability of data with other reports

explains the governance structure in place to manage environmental performance
