Reporting to Manager:	Digital Delivery Manager		
Permanent / Temporary:	Permanent	Full Time / Part Time:	Full-Time

Role Purpose (Why do we need this role?)

The candidate will be part of a talented agile team working to build the next generation of shipping applications servicing global customers and that solve global problems.

Under the general supervision of the newly established Programme Office and existing IT organisation, you have build new CI/CD capabilities on AWS, and manage CI/CD tools.

Role Accountabilities (What is this role responsible for delivering?)

Utilising Agile and Scrum

- Collaborate with a team of globally distributed staff and consultants to deliver complex CI platforms.
- Interact with development and service management team to manage and monitor the services.
- Prepare comprehensive documentation and ensure timely completion of work.
- Help transform traditional IT to modern DevOps processes.
- Use cutting edge technology to create innovative solutions on cloud.
- Implement automation for deployments, IaC, CI/CD, security, and cloud operations.
- Management of growing Elasticsearch, Logstash, Kibana stack
- Continuous Integration and Continuous Delivery using Jenkins

Safety

- Take responsibility for the safety of myself and those around me by displaying safety leadership principles (i.e. Safety I's & Accountability ladder).
- Challenging and stopping unsafe acts and behaviours or unsafe conditions.
- Comply with the Global Safety Standards, Policies and Operating Procedures.

Key Qualifications & Skills (What knowledge will ensure success in the role?)

Qualifications

- 5 years hands on experience on development solution using AWS cloud services and tools.

Technical Skills

- In-depth experience deploying and maintaining monitoring and logging tools
- Working experience container orchestration platform (Docker/Kubernetes) based on open source technologies,
- Must have strong automation/scripting skills -- proficiency in python or ruby is a plus
- Experience developing and maintaining technical documentation, runbooks, and procedures

Professional Skills

- Able to collaborate with business personnel to manage problem resolution effectively.
- Strong analytical and administrative skills.
- Work cross-functionally and think both critically and strategically.
- Current with business best practice methods, IT technology trends and can correlate potential impacts that technology may have on the business.
- Proficient in, or can quickly grasp applicable business processes and functions.
- Consulting attitude.
- Results driven and has a positive attitude.
- Effective team player and collaborator.
- Strong personal integrity.

How to Apply

Your opportunity to make a difference and empower results could start right here. If you feel you have the skills and experience necessary for the role and it offers the appropriate challenge in line with your career aspirations, please submit your application and resume [here](#).

Please note, candidates should have working rights in the respective region and would be employed under local terms.

Application Deadline: 3 April 2020
